/usr/local/lib/python3.11/dist-packages/huggingface_hub/utils/_auth.py:94: UserWarning:
The secret `HF_TOKEN` does not exist in your Colab secrets.
To authenticate with the Hugging Face Hub, create a token in your settings tab (https://huggingface.co/settings/tokens), set it as secret
You will be able to reuse this secret in all of your notebooks.
Please note that authentication is recommended but still optional to access public models or datasets.

Truncation was not explicitly activated but `max_length` is provided a specific value, please use `truncation=True` to explicitly trunca
Setting `pad_token_id` to `eos_token_id`:50256 for open-end generation.
Both `max_new_tokens` (=256) and `max_length` (=60) seem to have been set. `max_new_tokens` will take precedence. Please refer to the doc
In the future, humans will live on Mars and colonize the Red Planet. This means that a lot of the work in this field is already done.
```

```

Setting `pad_token_id` to `eos_token_id`:50256 for open-end generation.
Both `max_new_tokens` (=256) and `max_length` (=60) seem to have been set. `max_new_tokens` will take precedence. Please refer to the doc
Write a bedtime story about a dragon who is afraid of fire, and a story about a dragon that loves fire.

```

The first part of the story is a very long short tale about the dragon, who's afraid of fire, is in a fire pit, and he's afraid of fire.

The next part of the story is about the dragon who loves water, and he loves fire as well.

The last part of the story is about the dragon who loves fire from the beginning, and when the dragon gets scared of it, it's afraid of fire.

This story takes place in the middle of a fire tower.

How to Make a Dragon Go Away

1. Select a story about a dragon who loves fire, and then choose a story about a dragon that loves water.
2. Write the dragon's name in the cell.
3. Draw a circle in a circle.
4. Hold the pen and point your pen at the dragon.
5. Draw the circle.
6. Then draw on the pen.
7. Draw another circle.

```
1 prompt = "Write a diary entry from the perspective of a time traveler stuck in the wrong century."
2 result = generator(prompt, max_length=60, num_return_sequences=1)
3 print(result[0]['generated_text'])
```

Setting `pad_token_id` to `eos_token_id`:50256 for open-end generation.
Both `max_new_tokens` (=256) and `max_length` (=60) seem to have been set. `max_new_tokens` will take precedence. Please refer to the doc for more details.
Write a diary entry from the perspective of a time traveler stuck in the wrong century.

As the year comes to an end, there are only two possibilities, either way – the next century is up.

The first possibility is that the United States is heading for a long-term decline, and the second is that history is ending.

In the last decade, the country has experienced a series of devastating wars. In Iraq and Afghanistan, for example, the United States has experienced a series of devastating wars. In Iraq and Afghanistan, for example, the United States has experienced a series of devastating wars.

Of course, the United States is also facing a number of other military and political challenges in the near future. The United States has experienced a series of devastating wars. In Iraq and Afghanistan, for example, the United States has experienced a series of devastating wars.

The United States is also struggling to balance its defense budget – and it has been doing so for more than a decade.

The United States has also experienced a number of wars. In Afghanistan, for example, the United States had to fight to retake the country.
